Terms and Conditions of Certification

PHB Certification Services Ltd. is a UKAS accredited certification body operating under approved body identification number 8519. Module B certification is issued in accordance with Annex V of Regulation (EU) 2016/425 of the European Parliament and of the council of 9th March 2016, as brought into UK law and amended.

The certificate is for the exclusive use of the client and remains the property of PHB Certification Services Ltd.

The client shall not use the certificate in such a manner as to bring PHB Certification Services Ltd. into disrepute nor make any statements that may be considered misleading or unauthorised.

The client shall consistently fulfil certification requirements, including implementing any appropriate changes to documentation specifically requested by PHB Certification Services Ltd.

The client shall retain the certificate with the relevant technical documentation for a minimum of ten years following the date of issue and make available copies for the use and retention of PHB Certification Services Ltd., if considered appropriate.

Upon a reasoned request by United Kingdom Authorities, the client shall permit access to relevant technical documentation for ten years following the issue of certification.

Distribution of the formal certification documents must be done in their entirety.

The client shall only make claims regarding certification consistent with the scope of certification. Full details of the product and scope of certification are detailed within the manufacturer's technical documentation.

Production of the certified product is limited to the sites listed in the technical documentation.

The type-approval decision is based on the performance of the product at the time of certification. The client shall comply with Module C internal production control requirements as detailed in Annex VI of Regulation (EU) 2016/425 as brought into UK law and amended to ensure ongoing manufacture and performance is consistent with the product certified.

Where the product is classified as category III, the client shall comply with Module C2 or Module D conformity assessment procedures as detailed in Annex VII and Annex VIII of Regulation (EU) 2016/42 as brought into UK law and amended and the client shall agree to the participation of observers when necessary.

A declaration of conformity shall be made available in accordance with Annex IX of Regulation (EU) 2016/425 as brought into UK law and amended.

The client shall inform PHB Certification Services Ltd. of any modifications to the certified product and technical documentation, or any other changes that may affect the ability to conform with the certification requirements.

The client shall investigate any complaints associated with the certified product. Records of complaints and corrective actions must be made available to PHB Certification Services Ltd. upon request. In such cases, the measures taken shall be evaluated and verified to ensure continued compliance with the scope of certification.

The certificate remains valid from the date of issue until the expiry date, unless the product is modified, the certificate is suspended, withdrawn, terminated or reduced.

PHB Certification Services Ltd. reserves the right to withdraw the certificate if it is found that the product no longer complies with requirements.

Upon suspension, withdrawal or termination, the client shall return all certification documentation to PHB Certification Services Ltd., immediately discontinue the use of the UKCA mark on the product and shall amend any communication media and advertising matter that contains any reference thereto.

Certification is issued in the English language only. Translation into other languages is the responsibility of the client.

Terms and Conditions for Affixing Marks of Conformity on PPE

Marks of conformity shall only be used on the product and any accompanying documentation in accordance with United Kingdom legislation and upon receipt of official approval from a UKAS accredited certification body.

The use of the UKCA mark may only be used in relation to the product and accompanying documentation covered by the certificate and should under no circumstances be used in a way that may be interpreted as misleading.

The UKCA mark shall be affixed visibly, legibly and indelibly to the PPE on the product and any accompanying documentation and should be no less than 5mm in size. Where that is not possible or not warranted on account of the nature of the PPE, the UKCA mark may be reduced in size, or affixed to the packaging and to the documents accompanying the PPE.

The UKCA mark shall be affixed before the PPE is placed on the market.

For category III PPE, the UKCA mark shall be followed by the identification number of the approved body performing the Module C2 or Module D conformity assessment procedures as detailed Annex VII and Annex VIII of Regulation (EU) 2016/425 as brought into UK law and amended. Continued use of the UKCA mark and approved body identification number is reliant on continued surveillance.

The approved body identification number of PHB Certification Services Ltd. may only be used in combination with the UKCA mark for category III PPE where PHB Certification Services Ltd. is responsible for Module C2 conformity assessment procedures. It shall not be used on any form of documentation or communication media without permission unless each product has been inspected by PHB Certification Services Ltd. and found to be in compliance with the relevant performance standard(s).

Appropriate legal action shall be taken for the improper use of the UKCA mark and/or the approved body identification number not bound by the contract in place.
